

Microsoft® IT Academy Program

Virtual Training Calendar and Recording Links

Getting Started with the IT Academy

View this webinar recording to learn about the many tools and benefits now available to you! During this session, we will give you a high-level overview of the program benefits, focusing on the curriculum resources to help you determine what works best for you and your students. The session will include a brief demonstration of the administrative steps required to access the IT Academy benefits including how to sign into the IT Academy member site, activate and download the curriculum resources, and assign online learning.

Using Microsoft Official Academic Courseware (MOAC) in the classroom

MOAC offers a comprehensive solution for teaching Microsoft Office and Microsoft Technology Associate courses. The MOAC series provides e-books, lab manuals and instructor resources – everything instructors need to plan, prepare and teach in the classroom. Designed specifically for an academic setting, MOAC fits with classes taught over a period of 6-16 weeks. During this session, we will review how to access your MOAC e-Books and Instructor Resources from the ITA Member Site and integrate the curriculum into your classroom.
